

# How to publish in journals with APC vouchers, step by step

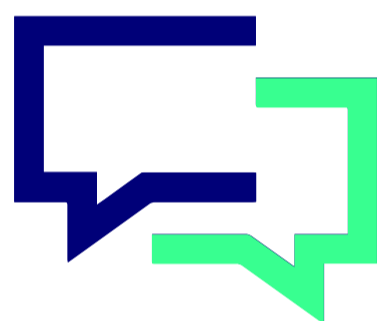

## 1 Submit your article

Once your article is accepted, its publication process begins. Register the submission using your UOC email address.

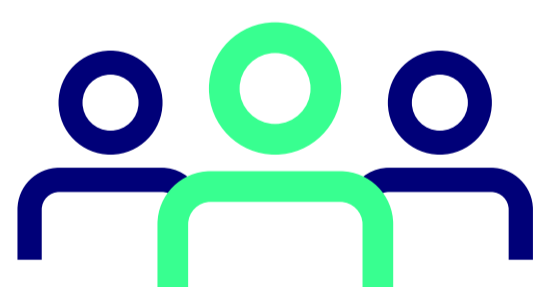

## 2 The journal contacts the UOC

The journal's team will identify the affiliation of the person requesting publication and will propose to the university the approval of a voucher.

## 3 Outcome of the request

The UOC will approve or deny the request depending upon the vouchers available and the publication guidelines.

## 4 Notification of outcome

The journal's editorial team will notify you of the decision. Under no circumstances are there any stoppages in the publication process.
